

ACF Victoria Molecular Cuisine Gels, Foams & Airs

On Monday 14th May, ACFV past President Dale Prentice conducted a Gels & Foams workshop at Lilydale TAFE Campus. There were 8 in the class so everyone was able to produce a recipe from Dale's very good notes. In the notes were all the ingredients, some familiar, some unknown to us. The hard part of trials and practices then started.

Dale intends to set up a permanent demonstration kitchen at Sous Vide HQ soon, so everyone will be able to attend his informative.
