

Heats Homeless Longest Lunch

A very big thank you to Arnold Greiner and Melbourne Polytechnic for allowing the Young Chefs Club Victoria to lend a helping hand in their contribution to Heats Homeless Longest Lunch.

We had a fantastic time meeting new faces and sharing experiences as new and upcoming chefs. We had a fun time in a different kitchen from our own and contributing to a wonderful cause. So full of waste it is highly gratifying to contribute our resources to feed those who may struggle to feed themselves. At its core I will consider that to be the highest calling of a chef and most humbling experience.

I highly encourage all chefs of current and future generations to seek out local opportunities to help the less fortunate. For just as we work to feed other people's bodies, giving back community definitely nourishes the soul.
