

International Chefs Day falls annually on 20<sup>th</sup> October. This year, in partnership with Nestle, Chef Jeff Walker celebrated with students and teachers from Saint Dymphna's Primary School in Aspley, Queensland. The day was a great success with the following thank you received from the Grade 6 teacher, Dr Annette Lyons.

"The students of Saint Dymphnas and I would like to thank Nestle and the truly amazing Chef Jeff Walker for the extraordinary experience of celebrating the International Chef's Day.

With great finesse, authenticity, and ease, Jeff was able to develop an awareness of healthy eating a passion for the industry of cooking.

Jeff held the students mesmerized in awe by his skills as a chef, presentation of food and the ease with which he made healthy food into work of art and delight. He went well and beyond in providing a huge overly generous banquet for the students while at the same time empowering them with knowledge about how they could create delicacies that would promote their health and well being.

An experience that students say they will always remember. Jeff is not simply an amazing chef but also an inspirational speaker."
